

JUL 26 2007

Appln. No. 10/532,894

Attorney Docket No. 10808-235

covers over the whole area, at least the first epitaxial layer and the second zone of the first buried layer (Figs. 2C-2D).

Species II: comprising a second collector zone produced on the first collector zone of the second bipolar transistor and a second collector zone produced on the first collector zone of the first bipolar transistor (Figs. 3A-3C).

### Election of Species

Applicant herein elects to prosecute the present application on the basis of Species I, specifically claims 1, 2, and 4-11. Claim 1 being generic to both Species I and II.

### Claims Readable on Elected Species

In reviewing the claims of the application, the undersigned submits that claims 1, 2, and 4-11 are deemed to be readable upon the elected species of species I.

### Conclusion

This reply to the election requirement is believed to be a complete and full response as required under PCT Rule 13.1. Examination of the application in accordance with the election presented above is, accordingly, respectfully requested. If the examiner believes that a direct conversation with the undersigned would be beneficial in connection with this response or in
